Reservations to Muslims at the cost of Hindu  
Tax Payers is criminal looting

-Dr Togadia

*New Delhi, February 8, 2010*

Opposing reservations to Muslims, Dr Pravin Togadia VHP Secretary General criticized West Bengal Government for announcing 10% reservation to Muslims despite the fact that only today Andhra HC quashed Andhra Government's unconstitutional move to give 4% quota to Muslims in Education, jobs & so on. For an eye-wash WB govt has shown that these reservations would be for socially, educationally & economically backward Muslims & OBCs in Muslims. This is all twisting the constitution & exploiting the hard working Hindus. Majority Hindus from middle class, higher middle class & other working / business class work hard & pay taxes. Instead of giving benefit of this money to the poor Hindus, Hindu Scheduled castes, Hindu OBCs & Tribes, government is all out to use this money to subsidize Muslims who do not even limit number of children quoting religion. This is not only unfair to Hindus but also it is a criminal looting of Hindus.

Dr Togadia termed the Sachhar & Rangnath Mishra reports as "Preparation for Criminal Looting of Hindus". He further added, "Andhra 4% quota, Sachhar & Rangnath reports & now West Bengal giving 10% reservations to Muslims are not sporadic isolated incidents. They are well connected & are a part of a larger conspiracy against Hindus. This criminal conspiracy of looting Hindus is being hatched to please & appease Muslim vote bank. Today Union government also announced that youth from POK would be encouraged to come to J&K & would be given special facilities. At this moment 78% Hindu youth in Bharat are unemployed, 79% Hindu farmers have already lost their lands / crops & most are about to commit suicides, 68% Hindu children are mal nourished. Yet, instead of helping them,

governments are showering favours on Muslims. This is not acceptable to Hindus.”

Dr Togadia expressed, “Hindu majority is being exploited in every field like education, employment, bank loans, trade facilities, housing & so on. From Inheritance Act to Marriage Act, all laws are only to trouble Hindus. Essential food costs have gone so high that even well to do middle class families are no more able to feed their children even a cup of milk daily & now there is Muslim reservation burden on the Hindus. Hindus have reached their limit of patience & without waiting for anyone to lead; Hindus would hit the streets any moment against this continued injustice. Muslims claim that they are no more just a simple minority; but they are ‘the second largest majority in India (as Jamait-e-ulema-e-Hind Maulana Madani says) & yet governments are bent on giving them facilities & reservations snatching education, employment, loans & lives of Hindus.”

Dr Togadia termed this move unconstitutional & expressed the concern that this would encourage not just conversions but also Jehadi incidents. He said, “Those who argue that Muslims are poor in Bharat & therefore they turn to Jihad, are living in a fool’s paradise. Pilots, Engineers, professionals from well to do families are following Jihad as a life style based on Madarsa preaching. If they are poor they do Jihad by bomb & when they get rich or educated they use planes, computers against Bharat. Therefore, it will help governments to get all Hindus to avail of education, employment, trade facilities instead of wasting Hindu Tax payer’s money on inspiring Jihad. When majority develops, the nation automatically develops. Those who do not even follow Bharat’s constitution should not be given an opportunity to misuse Bharat’s democracy & constitution for increasing their population to 'minoratize' Hindus.”

Dr Togadia suggested that if Muslim reservation moves continue then VHP would have to seriously look into the option of a democratic nation wide agitation soon.
