

on Hindu women. Hindus will be victimized if they protest against such courts. Nigeria and Sudan have witnessed the violence wrought on society because of sharia courts. Dr Jain asked if the Muslim Personal Law Board is trying to transform India also into a violent society? Dr. Jain said that the Muslim Personal Law Board is trying to conceal its wrongdoings by establishing these courts. After all, how many Muslim women would be able to summon the courage to challenge the decision of these sharia courts? Dr. Jain added that it was unfortunate that the Congress and Communists, who had opposed the Khap panchayats, are siding with the sharia courts. The Mulla-maulvis has already been issuing anti-women and anti-humanity fatwas even without the sharia courts. They will misuse their unlawful powers enshrined by these illegal bodies.

VHP appeals to the intelligentsia of the country that it puts pressure on the supporters of sharia courts so that this unconstitutional and anti-humanity conspiracy may not happen. The progressive Muslim community should launch a movement so that the Muslim Personal Law Board can be dissolved immediately.
