

Open the temples with all COVID-19 precautions: Alok Kumar

New Delhi, August 31, 2020 - The Vishva Hindu Parishad (VHP) has sought the opening of all the temples, Gurudwaras, Ashrams and other places of worship in the country, with all the COVID-19 related precautions in place. As a result of which, the increasing adverse effects on the mental-psychological health of the people, locked in their homes, due to this pandemic, could be curbed. VHP Central Working President Advocate Shri Alok Kumar said today, through a press statement, that the people locked in their homes for a long time, due to the Corona pandemic, have started going through mental pressures and stress, and consequently going to fall prey to depressions. In such a situation, they will be able to get rid of that mental stress by visiting temples and other places of worship.

The Hindu society, anyway, has always been carrying out its responsibility to comply with discipline, law & order. The Mata Vaishno Devi pilgrimage is also going on following all the necessary parameters and protocols put in place by the authorities against the spread of the lethal Corona virus infection. Thus now it is the right time that the Government should allow Temples, Gurudwaras & Ashrams etc. to open soon.

Regards
